

8K2 Auger Drive

For skid-steer loaders, excavators, and tractor loader backhoes

JUST RELEASED!

PALADIN LIGHT CONSTRUCTION

FEATURES:

- 2 speed shift on demand: adjustable range
- 48" Max Auger Diameter
- 2.5" Hex output shaft
- Case Drain Required
- Max Pressure: 5500 PSI
- Max Flow: 45 GPM
- Common mountings to 14K2 and 8000
- Wide variety of auger diameters, lengths and style for every digging application
- Extensions available for deeper digging
- Various mounts available for most applications

Model 8K2 (2 Speed)						
Maximum Auger Diameter		48"				
Minimum Hydraulic Flow		25 GPM				
Maximum Hydraulic Flow		45 GPM				
Maximum Continuous Operating PSI		5500 PSI				
Maximum working back pressure		500 PSI				
Output shaft options:		2½" hex
